Experience

Digital Marketing Engineer

Teradata Interactive / San Francisco, CA / May 2014 – Present

Develop HTML email and landing page templates, as well as digital assets to be used in marketing campaigns deployed from Eloqua and Marketo.

Technical Lead for automated marketing campaigns.

Work on proof-of-concept projects to showcase Teradata's Digital Marketing Center capabilities and API.

Train and mentor clients on how to best use Digital Marketing Center.

Client Work: Procter & Gamble, Autodesk, Intel, Hertz

HTML Production Engineer

Ozone Online / San Francisco, CA / September 2013 – May 2014

Developed HTML email and landing page templates to be integrated within Marketo and Aprimo Marketing Studio.

Led effort to create an Engineer Training Library in order to better onboard and train new engineers joining the Ozone Online team.

Client Work: Brocade, Intel, Medtronic, JPMorgan Chase

Web Producer & WordPress Theme Developer

OpenMarketing / San Francisco, CA / December 2012 – June 2013

Developed WordPress themes, as well as coded and themed new WordPress page templates.

Managed new WordPress builds for clients migrating from old, static Web sites. Maintained client assets, project deadlines and deliverables.

Client Work: PresenceLearning, Social Fluency, LiveHive, Kriste Michelini Interiors
